Docker

Presentación

José Pérez Aniorte

jpaniorte@gmail.com

Github: jpaniorte

Contenido

- 1. Instalación/Configuración Docker.
- 2. Fundamentos Docker.
- 3. Best Practices.

- Presentación <-
- Arquitectura Docker
- Lab 1: Instalación servicio Docker

- Introducción a Docker Open Source:
 - Docker Engine: Storage, Networking, Containers.
 - Docker Build: Dockerfile.
 - Docker Compose
- Lab 2: Play with Docker

- Docker Daemon Security
- Lab 3: Escalando privilegios.

- Lab 4: Docker Rootlees
- Lab 5: User namespace remapping
- Lab 6: Inter-Container Communication
- Lab 7: Resources constraints

- Docker Build: Dockerfile.
- Lab 8: Play with docker build

- Docker Image Security
- Lab 9: Scan images with Trivy.
- Lab 10: Lint Dockerfile with Hadolint

- Docker Container Security
- Lab 11: Secret managment
